NK Fencing is pleased to present our Roadwork capabilities as part of the NK service offering. As an experienced specialist in perimeter fencing, demarcation and access control, NK's Roadwork team build on our track record of providing safety and security to the road network through our integration and project management expertise.

Acoustic Fencing & Noise Reduction Systems

NK Fencing has much experience in providing acoustic fencing solutions. Our acoustic range covers the entire spectrum of noise reduction solutions, incorporating noise reflection or noise absorption designs, using timber or composite materials. We can partner with you, to research & design your unique noise reduction solution to your specification.

**Parapet Railings & Transition Systems**

NK provide parapet railing solutions to EN1317 standards and can partner with you to deliver the optimum solution combining safety and aesthetics. Railings and transition systems include steel, mesh and decoratively modified bar railings. NK also offers Stainless Steel solutions for pedestrian areas.

Crash Barrier Systems

Our crash barrier solutions include both profiled W section type and Open Box Beam incorporating bullnose and fishtail ends. All NK systems comply with BS6578 Part1:1998. Crash cushioning systems designed to fit seamlessly into your barrier solution can also be provided.

Associated products include: Guardrails, Palisec, Ibex, and Strained Wire Systems. Please refer to specific brochures for details.

Whatever the complexity of your Roadwork project, NK Fencing stands ready to partner with you to provide optimal perimeter protection.

NK FENCING – SECURED THROUGH TRUST
